# PROJECT OVERVIEW

---

- Funded by Ministry for Housing, Communities and Local Government (MHCLG) Local Digital Fund
- We are in the Alpha phase
- Being developed by colleagues from Morecambe Bay Hospital Trust who developed the Information Sharing Gateway
- End date of the project is Tuesday 21<sup>st</sup> May

# PROJECT OBJECTIVE

---

**Make the DPIA process easier to undertake  
for non IG professionals!**

# INTRODUCTION TO PROJECT

---

# WHY DO THIS PROJECT?

---

- Inconsistent approaches
- Uncertainty over benefits
- Uncertainty over the how and why
- Lack of clarity over roles and responsibilities
- No previous oversight of all DPIA's

What is the  
Problem?

# WHY DO THIS PROJECT? – THE BENEFITS

---

- Embed a privacy by design project approach
- Engaging IG from the outset
- Standardisation
- Robust management of risk
- Accessible to the business
- 21<sup>st</sup> Century IG practices
- Demonstrable accountability
- Proven interoperability with systems such as the ISG
- Saves time
- Legal compliance as set out by Privacy legislation

# WORKING OUT IN THE OPEN AND THE AGILE APPROACH

---

- Agile approach to break down the development and to be flexible in our decision making

Example:

- How we adapted the scope and approach based on a member of our team providing feedback regarding one of the questions
- This led to a renewed focus on integrated support for ease of completion
