To make Coventry a Digital Place

- Fibre to the home will be deployed to 99% of properties in Coventry by 2020 giving residents access to near Gigabit internet speeds
- Advanced stages of planning for how 5G will be able to support the City of Culture 2021 alongside the current 5G work supporting Connected Autonomous Vehicles
- Starting pilots of sensor technology on our Internet of Things Network looking at things like smart Rat Traps, Bins, Air Quality Sensors etc
- Cloud computing - completed deployment of 2 cloud based unified communications platforms (Skype for Business and 8x8) and are now looking at a corporate adoption of Microsoft Teams
- Digitisation programmes for internal services, eg, HR
- SOCITM DMM Assessment underway to help identify future priorities
